

Download to your Smart Phone!

Posted by Peter on 12 September 2010

There is a new feature on Listen to English which allows you to download podcasts direct to your iPhone or other Smart Phone.

Below each podcast there is a link "Download to your SmartPhone". Click the link to display a QR barcode. If your phone has a camera, an internet connection and a barcode reader, the phone will be able to read the barcode and download the podcast mp3.

This feature is still experimental. Please let me know if you find it useful, and if you find any problems with it.

This is the text of the podcast at <http://www.listen-to-english.com/index.php?id=536>.
