

How to find old podcasts.....

Posted by Peter on 17 October 2008

I have been making Listen to English podcasts for nearly three years. All the podcasts are on this site, but obviously there are now a lot of them. Several listeners have e-mailed me to ask how they can find and download the older podcasts easily.

Here is how to do it:

You can find older podcasts *on this website* by navigating to:

<http://www.listen-to-english.com/index.php?date=YYYY-MM>

where "YYYY" means the year (eg 2007) and "MM" means the month (eg 03 for March, 11 for November) of the podcasts you want to find.

So, for example, you can find all the episodes for March 2008 at:

<http://www.listen-to-english.com/index.php?date=2008-03>

If you want to download older episodes to your iPod, you may find it easier to use an RSS feed. You can find *an RSS feed* for all episodes for a particular month by navigating to:

<http://www.listen-to-english.com/podcast.php?date=YYYY-MM>

So, for example, you can find an RSS feed for all episodes from November 2007 at:

<http://www.listen-to-english.com/podcast.php?date=2007-11>

In the sidebar at the right-hand side of this webpage, you will find links to an archive ("How to find things on this site") and to "Listen to English - Greatest Hits", which is an RSS feed for some of the most popular episodes from 2006.

Happy listening and learning!

Peter

This is the text of the podcast at <http://www.listen-to-english.com/index.php?id=438>.
