

The Learning English Newsletter

Posted by Peter on 23 January 2010

Diana, who runs the [Helping You Learn English website](#), now produces a monthly e-mail newsletter. She says, "Each newsletter contains interesting and REAL information regarding using English in common situations. The main focus is NOT grammar, but how grammar works in the real world. Everything from visiting the doctor to ordering a bowl of soup at a restaurant."

There are many other interesting learning English resources on her website, so why not take a minute to explore it. You can sign up for the monthly newsletter [here](#).
