Here is a list of words and phrases. Some of them mean, or are associated with, "up-to-date". Some of them mean, or are associated with, "out-of-date". Can you arrange the words in two columns - "up-to-date" words, and "out-of-date" words?

latest....expired....modern....fashionable....no longer valid.....behind....out of touch with....new....today....most recent....yesterday....old-fashioned....trendy....up-to-the-minute....old....six months ago....updated....dated....outmoded....obsolete
